Dear Randy,

Due to budget restraints I will not be on Phase II of the District Foursquare Office Remodel. Before leaving, I wanted to commend you for the job well done and tell you I am very pleased with what was accomplished on Phase I.

As the Interior Designer on District Foursquare Office I was glad to recommend you for the project based on the success of our first project we worked on in 1990. I enjoyed the "team approach" in which you took on the project and as the only female on the team I felt respected and appreciated for my ideas and input.

Randy, I am extremely impressed in your professional growth in the last five years. You handled the project with ease and confidence and wisely choose sub-contractors that represented you well. Your quick and professional response solved problems before they began and we ended the project with no conflicts. I which I could say that about all my projects. I know you have gone to great expense, (paggers, cell phones, etc.) to make yourself highly accessible and I believe it has paid off. A timely answered question saves time, energy and money in the long run.

I wish you well in the future and certainly hope we will have the opportunity to work on another project together.

Mauri
