

**CURTISS  
WRIGHT** Controls, Inc.  
*Embedded Computing*

August 23, 2006

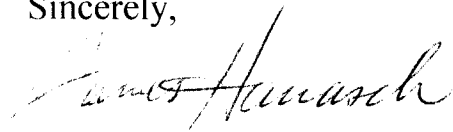

To Whom It May Concern:

Randal G. Winter Construction, Inc. recently completed a complex 5,000 square-foot "build out" project at our Santa Clarita facility. While working under an extremely tight time schedule, along with a very rigid project budget, the project was completed on time and within budget.

We have used Randal G. Winter Construction, Inc. on several construction projects and have been very pleased with the results.

I recommend Randal G. Winter Construction, Inc. with great confidence.

Sincerely,

James Hannasch, Facilities Manager
